Minutes
Lenawee C2C Executive Committee
November 20, 2018, 10:00 a.m.
LISD Education Service Center, 4107 N. Adrian Hwy., Adrian, MI

Attendance: Christine MacNaughton, Nate Hamblin, Mark Haag, Michael Masters
Unable to attend: Patricia Gray, Shannon Elliott, John Haught, Stan Masters

10:00 - Welcome / Brief Discussion Regarding Executive Team Composition
- Original intent was to have a smaller, well represented cross-section of the leadership team. Question was asked if we needed more to join. Current size seems functional.

10:10 - C2C Interactive Experience
- Funding has been secured - United Way provided a $1,000 donation. Current requests in process with two other service clubs and the Consumers Energy Community Grant. LISD has agreed to cover gap, if necessary.
- Work has begun to customize the experience to Lenawee County. Shared sample of the central “Key Indicators” banner.
- Timeline - Customize and complete order in December. Receive all files and finalize in January. Offer first simulation experience at February 19 Community Leadership Team meeting. Will host at the LISD TECH Center with an invitation push to all networks, teams, and partners. Goal is to have a minimum of 50 people present and will also distribute the community report card.
- Reviewed first draft of an Investment Opportunity handout which will accompany the interactive experience with a call to action of volunteer and donation opportunities for programs and organizations working within C2C desired outcomes. Suggestions for further additions were provided.

10:30 - Here to Be Heard Student Cohort Update
- Following the last Community Leadership Team meeting, Kelly Castleberry, Community in Schools (CIS) Director, met with Nate Hamblin. They are applying for a grant that would allow CIS to hire a programmer with the desire to revitalize the Voices for Change groups at the local districts. She expressed interest in having these groups serve as a student voice platform for C2C. Results of that grant application will be known by the end of the year.
- Nate also followed up with Jenny Heath after Ryan Rowe’s suggestion to utilize a cross-section of students already gathered at the LISD TECH Center. Jenny is open to the idea, but invited Nate to contact Kim Dusseau who facilitates a monthly student leaders meeting at the LISD TECH Center. This group is centered on making decisions with students and not merely for students. The group meets for a half hour monthly.
- Next Steps - We will wait to see what comes of CIS grant / Voices for Change. In the meantime, Nate will arrange to observe the LISD TECH Center Student Leadership Team.
10:45 - 2018 Community Report Card
- Reviewed plans for layout and the data “dashboard” that will be included in this year’s report.

11:00 - StriveTogether Civic Infrastructure Assessment Review
- Nate Hamblin and Stan Masters are working to complete this accountability tool from StriveTogether.
- Reviewed the items in place needed to move from the Emerging partnership gateway into the Sustaining gateway. The analogy we’ve begun using is moving from thermometer to thermostat capacity.
- The two rubrics yet to be met in the Emerging gateway land in the investment and sustainability requirements:
  1. “Having in place the necessary capacity to support the daily management of the partnership, data needs, facilitation, communication, and engagement of the community.”
     a. Discussion centered on the “facilitation capacity” still needed at the local student success network level.
  2. “Partners support the operations work of the partnership”.
     a. Discussion centered on the need to broaden partner support beyond LISD’s backbone role.

11:30 - Adjournment
