
Frank Nagle called the meeting to order at 8:02 a.m. and started with introductions.

Minutes Review- March minutes uploaded to LHN Drive for review.

Overview:
- 2017 Community Health Assessment (CHA) Update (Frank Nagle)
  - 2017 Lenawee Community Health Assessment final draft has been received from Hospital Council of Northwest Ohio. Document is under review before it is made public at the April 30 community presentation.
  - If your agency would like to have program/agency flyers, brochures or a poster at the community event, please email Frank – frank.nagle@promedica.org.
  - If you plan to attend the April 30 presentation please RSVP to frank.nagle@promedica.org or call 517-265-0277

Opportunities for Collaboration:
- How can ProMedica Grants Department Support the Work of LHN (PPT by Stephanie Cihon and Tisha Jones)
  - ProMedica consists of 13 hospitals serving 27 counties across Northwest Ohio and Southeast Michigan. The Grants Department works with our communities to identify health needs priority areas, evidence based models, data and community partners to collaborate on community projects.
  - The Department has two Grant Writers and two Post Award Fiscal Managers.
  - ProMedica’s areas of focus include:
    - Social Determinants of Health, which include
      - Food insecurity, behavioral health, education/employment, transportation, social isolation, personal safety, utilities, financial strain, child care, health literacy
    - Clinical Excellence and Health Improvement
      - Diabetes, Heart Disease, Opioid Crisis, Asthma, Infant Mortality
  - The Questions to Consider When Identifying Community Needs/Solutions handout was shared and reviewed. Key takeaways include:
    - RFP alignment with applying organization’s strategic plan
    - The need to identify data sources related to priority areas
      - Example – opioids could collect # of referrals prescribed, morphine equivalents, overdoses, deaths, admissions, readmissions, NARCAN kits distributed etc.
    - Evidence based models to support priority areas
    - Partners with resources to support evidence based models/grant writing
    - Need for ongoing measurable outcomes for programs
    - Collaboration to make most efficient use of resources in meeting community health needs
  - Community Priority Areas of interest if funding were available.
    - Active Transportation / Lenawee Non-Motorized Transportation Plan, connection to new hospital campus was communicated as an idea.
Network Collaboration:

- **Grants**
  - ProMedica Bixby Hospital was awarded grant funding from the Michigan Health Endowment Fund to expand Veggie Mobile services, to support the implementation of the ProMedica Farm, and to address Social Determinants of Health. This grant will begin in May and more details will be available at the May LHN meeting.
  
  - Family Medical Center was awarded funding from Michigan Primary Care Association to support collaborations with Community Mental Health and the Michigan Opioid Collaborative in the implementation of a Hub and Spoke Model to bring Medication Assisted Treatment (MAT) Services to Lenawee.

- **Data**
  - Many agencies may already have processes in place to collect data that the LHN is looking for to support grant applications and community projects. The LHN Drive could serve as a potential platform to compile an organized list of data metrics the LHN collects on a consistent basis as support data to the Lenawee Community Health Assessment.
  
  - In the LHN follow up email sent on Friday, Frank will include questions for agencies to answer related to their agency’s priorities, programs, data, and resources. Agencies can complete the document, email back and Frank will compile into one document for the LHN to continue to build upon.

Strategic Plans / County Goals:

- **LHN Strategic Lifestyle Choices** plans were provided to attendees and is posted on the LHN Drive. A review of the goals and activities was completed.

- It was determined to structure data collection and progress reporting through quarterly conference calls where participants can call into the conference line to provide updates related to each goal or activity that they are involved. This will ensure meeting time is dedicated to a progressive agenda each month focused on accomplishing goals and getting desired results.

- Updated MOU was distributed to attendees. MOU’s will be sent electronically to 2017 LHN membership and engagements with agencies to join LHN will begin following the April 30 presentation. We will utilize our updated plan, 2017 Lenawee data, our bigger picture vision to engage agencies to join the county’s efforts.
  
  - Please send completed MOU’s to frank.nagle@promedica.org

Events:

- **United Way of Monroe/Lenawee** is hosting a Health Check at the Lenawee County Fair Grounds on May 24, 2018 from 8:00 AM until Noon. Please see the LHN Drive for a draft of the flyer

- **Catherine Cobb** will host their third annual Ladies Golf Spectacular on Friday June 1, 2018. Please see LHN Drive for flyer

- **Region 2 AAA** will host their First Annual Safe Haven Benefit on Thursday June 14, 2018. For more information, please visit their website for more details. http://r2aaa.net/index.php/how-can-we-help/safe-haven/safe-haven-benefit-2018

Next Full LHN Meeting May 10, 2018 at 8:00 am in the Merillat Center on the ground floor at ProMedica Bixby Hospital. Meeting adjourned at 9:30 am.

Respectfully Submitted,

Frank Nagle
Project Coordinator
ProMedica Bixby Hospital
