ProMedica Farms Tour:
- Attendees toured the ProMedica Farms. Through a partnership with the Eisenhower Center, the ProMedica Charles and Virginia Hickman Hospital Campus received a hoop house to grow produce year round and to source on the ProMedica Veggie Mobile. The Hoop House is fully functional with planter boxes growing a variety of produce (eggplant, swiss chard, tomatoes and a variety of others).
- The garage behind the Farm House is being remodeled into a classroom setting to provide residents with hands on education and experiences related to gardening, harvesting, and cooking.
The campus previously was a golf course. In the design of the new hospital campus, golf cart paths were maintained to be transformed into walking trails to connect patients, visitors, and the community around the entire campus.
