Lenawee Health Network
Full Meeting
Meeting Minutes – May 9, 2019

Frank Nagle called the meeting to order at 8:05 a.m. and began with introductions.

Minutes Review – Members unanimously approved April meeting minutes.

Strategic Plans / County Goals:
- Collective Impact Core (CIC) Updates – The CIC May updates for each coalition/network were shared with meeting attendees. The document has been uploaded to the LHN Google Drive under the About LHN -> Collective Impact folders.

- Building a Trauma-Informed Lenawee Presentation – CIC:
  o This presentation was provided to LHN attendees on behalf of the CIC. Overall, the CIC has established a goal to increase resilience and decrease trauma (as measured by ACEs) through community and education.
  o Through the communication and education, the CIC would like to identify 2-3 agencies or organizations to utilize the MDHHS Toolkit supporting agencies in assessing staff/consumers about the agency/organization’s ability to be trauma-informed.
  o Agencies/organizations then establish 1-3 goals identified from evaluating the results of the assessment to determine strategies that enhance areas of opportunity and reinforce areas of strength.
  o Agencies are asked to share data with the CIC for evaluation of effectiveness collective approaches to become a more trauma informed community. In the Memorandum of Understanding, the expectations of collaboration are clearly communicated and ensure agencies that their name will not be linked to any of the results of their surveys.
  o If agencies are interested and want to participate, they will have direct linkages to technical assistance provided by the LHN and Collective Impact Core. Community Action Agency has started this process already and developed an electronic scoring system that can streamline the assessment and evaluation process for staff assessment/planning/implementation.
  o Department on Aging, Region 2 AAA, and United Way of Monroe and Lenawee County expressed interest. Direct follow-up will be provided to each of their agencies.
  o Slides and fact sheet are available on the LHN Google Drive -> Resources/Events -> Trauma folders.
  o Links to presentation videos are:
    - What’s an ACE Score? - https://youtu.be/ccKFkefXx-c
    - How Resilience is Built - https://youtu.be/xSf7pRPOGU8

Round Table Discussion:
Attendees participated in a round table discussion asking attendees what impacts of trauma they see and if their agency has participated in trauma or ACEs training in the past.

- Maurice Spear and LISD – Mary Markle
  o Shared that she has applied for an LISD grant with a scope of working toward becoming more trauma informed.

- Catholic Charities – Sue Lewis
  o Shared that Catholic Charities received a grant to go into the schools to do training and education focused on the prevention and identification of sexual abuse. This model includes training for children and is anticipated to launch in the fall.
  o Model has been presented to Lenawee county superintendents to explore opportunities of collaboration. It is communicated that the launch will likely start in Adrian and Madison schools followed by extension to other Lenawee County schools.
- **United Way of Monroe and Lenawee Counties** – Laura Schultz Pipis
  o Shared that the Human Trafficking, Domestic Violence, and Sexual Assault groups have met and decided to join forces under one group called the At Risk Collaborative. The At Risk Collaborative is made of leaders from each group and meet monthly.
  o General member meetings started April 17, 2019 starting at 1:30 pm.

- **Department on Aging** – Cari Rebottaro
  o Shared that their staff have asked to receive more education related to trauma. 50 at home service aids experience trauma in their work and potentially in their personal lives. Cari expressed interest in more details regarding becoming trauma informed and education opportunities available.

- **Community Mental Health** – Jackie Bradley
  o Attendees began discussing increased resiliency in Lenawee. At that point, Jackie shared that the scope of this initiative is to establish a foundation of agencies becoming trauma informed first so that they are able to then support increased resiliency as a result of organizations enhancing their abilities to be trauma informed.
  o Jackie communicated that details regarding interest to have more information about resiliency will be taken back to the CIC to explore ways to integrate into current awareness and education initiatives.

**Emerging Issues:**

- **MDHHS Sexual Violence Prevention Grant** - ProMedica Bixby Hospital Emergency Department Application
  o LHN Leadership unanimously voted to support a grant application from Bixby ED for an MDHHS Sexual Violence Prevention Grant.
  o The LHN will serve as a platform for Rachelle VanAken to share updates about the project and to explore opportunities of collaboration.
  o There is a significant connection between trauma and sexual violence. LHN Leadership will ask Rachelle to share updates of the grant’s proposed model at a future LHN meeting.

- **HRSA RCORP Implementation Grant** – Family Medical Center
  o Audrey Smith shared that Family Medical Center has applied for the HRSA Rural Communities Opioid Response Program Implementation Grant focused on the implementation of the Vermont Hub and Spoke model.
  o This model will expand MAT and further establish the hub of centralized resources available to “spoke” providers prescribing MAT to their patients or the community.
  o Grant required working through a consortium of four agencies so the Lenawee Opioid Consortium was established with community partners to lead the development and implementation of the grant.
  o This project would provide $1,000,000 up front for the three-year project to be completed.

- **Other:**
  o Region 2 AAA has a large Aging Mastery cohort of 18 participants currently in place. The program is off to a great start and Region 2 is exploring options of integration and sustainability of program following the completion of the grant period. For more information, please contact Martha York.
  o Access for All now has a mobile phone app available on android and iPhone. This app will expand to include accessibility information for local parks as well.
  o Saturday 5/11/2019 is the Letter Carriers Food Drive.
  o E-Race Stigma 5k event will take place on Sunday 5/18/2019.
  o MSU-E has launched Cooking for One classes that have filled up and are going well. The focus of the class is to teach healthy eating and cooking tips to individuals preparing meals for one. For more information, please contact Vickie Pfeifer.

The LHN’s next meeting will take place on June 13, 2019 from 8 am until 9 am located at the Merillat Center of ProMedica Bixby Hospital.
From 9 am until 9:30 am, a brief tutorial of accessing and utilizing the LHN Google Drive will be offered to members. Please bring your laptop or preferred electronic device to walk through the functionalities of the LHN Google Drive.

Respectfully Submitted,

Frank Nagle
